

CONFERENCE

STRUCTURAL FRAMEWORKS FOR
OPEN, DIGITAL RESEARCH
– STRATEGY, POLICY & INFRASTRUCTURE

Copenhagen, June 11th-13th 2012, the Danish Royal Library
Structural Frameworks for Open, Digital Research
– Strategy, Policy & Infrastructure

International conference & workshop arranged by the Nordbib programme

The subject of the conference is the overall political, organisational and technical framework for doing open, digital research both presently and with a view to the 8th Framework Programme (FP8). Many different organisations are sitting with each their piece of the overall infrastructural jigsaw puzzle that needs to be laid before cultural and scientific information and data can really be captured, disseminated and re-used. The conference will bring these stakeholders together to clarify what is being done and what needs to be done.

Programme:

Day 1, June 11th afternoon - Session A: **Setting the scene**

- Introduction by EU commissioner **Neelie Kroes** (possibly by video), vice-chair of the Commission
- Dr. **Carl-Christian Buhr**, cabinet member to Neelie Kroes
- Keynote: prof. dr. **Tony Hey**, corporate vice president of Microsoft Research Connections
- **Jill Cousins**, Executive director of Europeana

Day 2, June 12th

Morning, Session B: **Research output & infrastructure** *(to be expanded)*

Afternoon, Session C: **Organisations & collaboration** *(to be expanded)*

Day 3, June 13th

Morning, Session D: **Policy & strategy** *(to be expanded)*

Afternoon (short session), **Summary and conclusions**
